Ahmad Firas Elaina

ML/AI Engineer · Data Scientist · Data Engineer · Data Analyst

Amman, Jordan | +962 797 379 552 | Email | LinkedIn | GitHub | Portfolio

SUMMARY

Data Science fresh graduate, GPA 3.99, from Jordan University of Science and Technology. ACM paper co-author with hands-on ML lifecycle experience: data pipelines, classical ML, deep learning, transformers, deployment.

EXPERIENCE

Data Entry Specialist - BRZ Part-Time, Amman · Nov 2024 – Present

- High-volume order records in Excel; workflows cutting processing time and errors.

AI, Data Science & Software Development Intern - ProgressSoft Corporation Amman, Jordan · Jun – Aug 2026

AI & Data Science Track

- Full ML/DL curriculum built mostly from scratch: text processing, classical ML, neural nets, transformers, compression, serving.
- NLP pipeline on IMDB 50K: tokenizers, TF-IDF, Elasticsearch indexing, Logistic Regression/SVM with regularization and Optuna tuning.
- MLPs, CNNs, autoencoders, LSTM/GRU and Transformers in PyTorch/TensorFlow, plus BERT fine-tuning with PEFT.
- 8-bit quantization, ONNX export, FastAPI serving, load-tested to 100 parallel requests.

Software Development Track

- Java CLI banking app (auth, deposits, transfers), layered architecture; GitLab branching, peer review, 40+ tests.

Software Engineer Intern - Euro Arab Insurance Group Amman, Jordan · Sep – Oct 2026

- Built a full-stack, Arabic (RTL) internal IT ticketing system using React (TypeScript), FastAPI, and SQLite, featuring a multi-level approval workflow across 8 request forms with role-based permissions derived from department and job title.
- Implemented secure session-based authentication, wrote 143 automated backend tests, and prepared deployment to an offline Windows Server internal environment using NSSM.

PUBLICATIONS & PROJECTS

End-to-End Data Engineering Pipeline for AI-Assisted Project Domain Classification - ACM ICICS '26, DOI 10.1145/3812734.3813717

- ETL over 486 records, 38 domains; fixed a label-leakage bug, raising BERT macro F1 0.05 → 0.52, 67.37% accuracy.

SkillLink - AI-Powered Freelance Marketplace - Graduation Project · FastAPI, React/TypeScript, PostgreSQL, Docker

- Backend/ML lead: skill-matching recommender and 5 ML systems (pricing, screening, skill-gap), FastAPI, Docker.

Customer Churn Intelligence Platform - Python, Scikit-learn, FastAPI, Docker

- Churn service (Logistic Regression, Random Forest, Gradient Boosting) with SHAP explanations and revenue-at-risk dashboard.

NLP Sentiment Analysis Platform - Python, FastAPI, React, Docker

- Airline tweet sentiment classifier (Linear SVM, TF-IDF), 77.8% accuracy on 14,640 tweets, served via FastAPI/React dashboard.

EDUCATION

Jordan University of Science and Technology (JUST) - B.S. Data Science Irbid, Jordan · Oct 2022 – Sep 2026

Dept. of Computer Information Systems · Cumulative GPA: 3.99

SKILLS

AI & LLMs: LLMs · GenAI · RAG · Transformers · Hugging Face · Fine-tuning & PEFT · Prompt Engineering · NLP · Quantization · ONNX

ML & Deep Learning: PyTorch · TensorFlow · Scikit-learn · CNNs · RNN/LSTM · Autoencoders · Optuna · Model Selection

Data: Pandas · NumPy · ETL · Feature Engineering · PostgreSQL · Elasticsearch · Power BI

Deployment: FastAPI · REST APIs · Docker · Git/GitHub/GitLab CI · Jupyter · Matplotlib · Seaborn

Programming: Python · Java · SQL · TypeScript · HTML/CSS

CERTIFICATIONS & LANGUAGES

- Data Parallelism: Training Deep Learning Models on Multiple GPUs - NVIDIA DLI
- Building Transformer-Based NLP Applications - NVIDIA DLI
- Harnessing the Power of Data with Power BI - Coursera / Microsoft
- Introduction to Modern AI - Cisco Networking Academy

Spoken Languages: Arabic (Native) · English (Fluent)
