

Ahmad Firas Alaina

Data Science • Machine Learning Engineer • AI & Analytics

Amman, Jordan • +962 797 379 552 • ahmadalaina09@gmail.com • linkedin.com/in/ahmad-alaina • github.com/A7MAD-04 • a7mad-04.github.io

PROFESSIONAL SUMMARY

Final-year Data Science student at Jordan University of Science and Technology with a perfect GPA of 3.99/4.0 and a published ACM research paper. Hands-on experience in building end-to-end machine learning pipelines, NLP systems, and data engineering architectures. NVIDIA-certified in deep learning and transformers. Seeking a full-time role in Data Science, Machine Learning Engineering, or Analytics.

EDUCATION

Jordan University of Science and Technology — JUST

Expected Oct 2026

Bachelor of Science in Data Science | Dept. of Computer Information Systems | Irbid, Jordan

- GPA: 3.99 / 4.00 — Perfect Score
- Relevant Coursework: Machine Learning, Deep Learning, NLP, Data Engineering, Cloud Computing, Databases, Statistics, Algorithms
- Published peer-reviewed research paper at ACM ICICS '26 international conference

RESEARCH & PUBLICATIONS

End-to-End Data Engineering Pipeline for AI-Assisted Project Domain Classification

ACM ICICS '26

Co-authored with faculty supervisor & 3 colleagues | 7-page ACM proceedings | Irbid, Jordan | May 2026

- Designed a full ETL pipeline ingesting 486 labeled records (JSON, CSV, unstructured text) across 38 technical domains with schema unification, imputation, and feature engineering (TF-IDF, keyword taxonomies, complexity scores).
- Benchmarked Logistic Regression, Random Forest (500 trees), and BERT. Detected and resolved label leakage — boosted BERT macro F1 by 10x (0.05 → 0.52). Best test accuracy: 67.37%.
- Proposed a human-in-the-loop deployment strategy estimated to reduce manual classification labor by 75–80% in enterprise environments.

PROJECTS

Customer Churn Intelligence Platform

2025

Stack: Python, Scikit-learn, FastAPI, Pandas, NumPy, Matplotlib, Docker | github.com/A7MAD-04/customer-churn-platform

- End-to-end ML platform predicting customer churn using Logistic Regression, Random Forest, and Gradient Boosting with SHAP-based feature importance. Served via FastAPI REST endpoints.
- Designed full preprocessing pipelines (imputation, encoding, feature scaling) and an interactive analytics dashboard showing churn probability scores and revenue-at-risk metrics. Containerized with Docker.

SkillLink — AI-Powered Freelance Marketplace Platform

2025 – 2026

Graduation Project | Stack: Python, FastAPI, React, TypeScript, Docker, REST APIs, Pandas

- Led the data science and backend components for a full-stack freelance marketplace; built ML-powered recommendation engine matching freelancers to job postings using skill profile similarity.
- Developed RESTful APIs with FastAPI and real-time analytics pipelines tracking user activity, engagement metrics, and platform reporting for business stakeholders.

WORK EXPERIENCE

Data Entry Specialist — BRZ

Nov 2024 – Present

Part-Time | Amman, Jordan

- Maintained high-volume delivery order records in Microsoft Excel, validating and reconciling logistics data to ensure consistency and accuracy across operational datasets.
- Developed structured data entry workflows that improved processing speed and reduced error rates, supporting management reporting and operational decision-making.

TECHNICAL SKILLS

Languages	Python • SQL • TypeScript • HTML / CSS
ML & AI	Scikit-learn • PyTorch • BERT • Transformers • Transfer Learning • LSTM / RNN • Gradient Boosting
Deep Learning	Multi-GPU Training (Data Parallelism) • NLP Pipelines • Fine-tuning Pre-trained Models
Data Engineering	Pandas • NumPy • ETL Design • Feature Engineering • Data Cleaning & Validation
Visualization	Matplotlib • Seaborn • Power BI
Backend / Infra	FastAPI • REST APIs • Docker
Frontend	React • TypeScript
Tools	Git • GitHub • Jupyter Notebook • Microsoft Excel

CERTIFICATIONS

Certification	Issuer	Credential
Data Parallelism: Training Deep Learning Models on Multiple GPUs	NVIDIA DLI	View Certificate
Building Transformer-Based NLP Applications	NVIDIA DLI	View Certificate
Harnessing the Power of Data with Power BI	Coursera / Microsoft	View Certificate

LANGUAGES

Arabic — Native English — Professional Working Proficiency
